### GERMANS SEND REPLY TO NOTE OF AMERICA

(By Associated Press)  
LONDON, April 23.—Germany has sent to Washington a reply to the American note rejecting the role of arbitrator for the reparations question between Germany and the allies. The position of Dr. Walter Simons, foreign minister, is particularly important.

The Berlin note answering the recent American communication on the reparations question will be forwarded to Washington tonight, it was announced.

(By Associated Press)  
PARIS, April 23.—Germany, instead of either agreeing or refusing to transfer the gold reserve of the reichsbank to the occupied territory in the Rhineland, as the allied reparations commission demanded, has offered to agree not to export or permit exportation of gold from Germany before October 1.

The American reply to Germany's request for mediation is dealt with prominently by all Paris morning journals. Interest in it eclipses even that in the Lymphone conference between Premiers Lloyd George and Briand.

(By Associated Press)  
WASHINGTON, D. C., April 23.—Approval of the course of the American government with respect to reparations is believed to have been indicated by allied diplomats here before the dispatch of Mr. Hughes' reply to the Berlin appeal that President Harding act as mediator and fix the sum Germany must pay.

It became known the German request and the American reply were discussed informally by the secretary of state and European ambassadors. It is understood the foreign envoys were appraised of the character of the American reply in the interim between receipt of the German memorandum and the sending of the response. State department officials were awaiting today an answer from Berlin which press dispatches indicated was about to be made after being placed before the reichstag.

(By Associated Press)  
LYMPHON, England, April 23.—Exchanges which have been going on for some weeks between the British and French foreign offices relative to the German reparations, will be resumed here late today between Premiers Lloyd George and Briand.

The French plan broadly is the project for administration taxing for the benefit of the allies of the Ruhr coal basin and some parts of the Westphalian industrial district of Germany.

### JAILED FOR SINGING THE 'INTERNATIONALE'

(By Associated Press)  
BUDAPEST, April 23.—Several persons were arrested here recently for singing, whistling and humming the forbidden "Internationale," the battle song of communists. They were saved from punishment by a sympathetic expert who testified in court that the second anniversary of the communist proclamation of independence in Hungary had brought back unconscious associations.

### SOVIETS TO FREE ALL SALVATION ARMY PRISONERS

(By Associated Press)  
NEW YORK, April 23.—Commander or Evangelist Booth of the Salvation Army announced today receipt of a cable message from the London headquarters stating that all Salvation Army prisoners in Russia had been released by the soviet authorities.

These prisoners, Commander Booth said, numbered about 35 officers and native Russians in charge of the organization's activities in Russia, who were imprisoned last February.

### BREAK IN MAIN PIPE CAUSES A WATER SHORTAGE

The reason for the streets not being sprinkled this morning was because of a break or leak in the main pipe line between the reservoir north of town and this place. This morning the chief of the fire department, Charles Askin, reported only six feet of water remaining in the fire tanks, which have been supplying domestic users for the past three days, and owing to the prevailing wind it would be dangerous to let the tanks get much lower. The break was repaired this afternoon and the pumps started to refill the tanks. This explanation is for our honored guests, the Masonic fraternity of Nevada, who are today wiping the dust from their eyes owing to the wind holding sway. At 3 p. m. the fire boys were laying the dust with the limited amount of water available.

It behooves all water consumers to curtail consumption for the next few days in order that the tanks on Brougher mountain may be refilled. If a conflagration had started last night or this morning, with the prevailing wind velocity, Tonopah would have been wiped from the map. There should be some sign or method of warning to water consumers to curtail usage during a break in the main line. The town board should insist on a daily report from the Water Company as to conditions of water supply.

### REVOLT AGAINST REDS GROWING IN THE UKRAINE

(By Associated Press)  
STOCKHOLM, April 23.—An organized rebellion against the Russian soviet government is growing with renewed force in the Ukraine, say telegrams from Petrograd.

The peasants engaged in the revolt have taken many towns between the Dniester and Dniester rivers and are reported to be engaged in operations intended to force the bolsheviks eastward from the bank of the Dniester.

### WILDES ON STAND WHEN STATE BANK HEARINGS OPEN

The hearing of the State Bank receivership matter was resumed yesterday morning before Judge Langan, according to the Carson Appeal, with Receiver Frank Wildes on the stand.

Attorney Chariz asked the witness many questions relative to the transactions of the bank since Wildes took over the affairs. Wildes submitted a report showing all of the receipts and disbursements, which were questioned and explained.

The report shows that the net receipts amounted to \$652,449.93; of this amount the depositors received \$225,439.36, and there is on hand the sum of \$426,910.57. The expenses embraced all of the law suits, the clearing of accounts, the costs of collections, salaries, insurance and taxes.

The most important feature of the morning's hearings was brought out by Attorney Chariz. He asked Mr. Wildes what in his best judgment was to be done with the affair as it stands today.

Wildes stated that he believed by bonding all the property intact for one year the depositors would be paid another dividend ranging from 10 to 11 1/2 per cent; if a forced sale of all the properties were insisted on that not over a 2 1/2 per cent dividend could be realized.

On forced sale it was shown that the Tonopah bank property might bring \$50,000, the Carson bank \$15,000 and the Crocker building \$200,000, while the Manhattan mining claims might bring \$300,000, at the same moment the latter ground is held by a concern under a \$100,000 bond, the bond to run one year.

It was evident from the expression of the attorneys that they will complete the forced sale plan, a complete clean-up of the bank's interests and the discharge of the receiver.

During the progress of the morning's session it was intimated that the attorneys conducting the hearing will maintain that it is unlawful for the receiver to speculate on future values notwithstanding the fact that over \$50,000 has been brought to the bank by holding and selling stock left on hand through the failure.

The matter has progressed to a point where the question of continuing the receivership or his immediate discharge and winding up of affairs is to be settled.

Wildes stated that personally he was willing at any time to hand in his resignation as soon as the affairs were gone over. However, he at all times has been insistent that the best policy for the conduct of the business is to continue it another year, whether he is at the head or some one else.

### BELIEVE HAYWOOD HIRED BY LENINE

(By Associated Press)  
CHICAGO, April 23.—Federal officials said they had received information that "Big Bill" Haywood, former I. W. O. chief, who is believed to be in Russia, had gone to that country to become head of the propaganda bureau of the soviet government.

"We have information that Haywood was chosen for this work by Lenin after being recommended by certain radicals who had been deported from the United States," said District Attorney Cline.

Haywood's time limit for reporting at Leavenworth penitentiary to begin serving his 20-year sentence for obstructing war activities expires Monday.

### LOCAL SHRINE CLUB DANCE A GREAT EVENT

The grand ball given last evening at the Airborne by the Shrine Club of Tonopah to the visiting Masons and their ladies was the most elaborate and enjoyable affair ever witnessed and attended by the Masonic fraternity in Nevada. More than 300 Masons and ladies participated in the grand march. The gowns worn by the ladies were the most gorgeous and up-to-date of national modistes. The floor was in perfect condition and Reno visitors claimed it was the finest dance floor in the state. The evening's success was assured by the local Shrine club members, who refrained from dancing so as to see that all visitors did not miss one dance. Lichtenberg's orchestra furnished the music; and that it was up-to-the-minute is proven by the many complimentary remarks by members of the Shriner's band of Reno, who state that the orchestra is the peer of all musical organizations in Nevada.

The visiting Masons are of one opinion that "Tonopah knows how to do it," and each one says our entertainment has been superb, and to think of it, away out here on the desert.

The dancers did not cease their festivities until the melody was called at 2 o'clock this morning, and they were reluctant to depart, as the evening had been a wonderful one. The Shrine club dance was pronounced one of the greatest of affairs of the kind ever held in this state.

### SEVERAL TONS OF MAIL TAKEN BY SINN FEINERS

### CRITICIZE THE ENTENTE OVER REPARATIONS

(By Associated Press)  
COPENHAGEN, April 23.—The steps taken by the entente nations to compel Germany to pay the war reparations are being criticized in the financial and industrial circles of Scandinavian countries. Apprehension is expressed that these measures will also have a punitive effect on the neutral countries.

"There can be no doubt," said a prominent Danish manufacturer to the correspondent, "that Denmark and other neutral countries, especially those bordering on Germany, will be swamped by German manufactures to the great detriment of our national industries. A great many of which will be ruined. I for one think that it is high time that those countries, who for one reason or another, took a neutral attitude in the great war, got together and agreed on a joint policy for protecting our own interests."

A well known Danish politician, Dr. L. V. Birck, professor of economics in the University of Copenhagen, said in an interview:

"The tragedy of the situation is that Germany will not pay, and cannot even if she would. Her home debt has passed the sum of \$66,000,000,000. The indemnity insisted upon adds an amount equivalent to the whole value of Germany's national wealth according to pre-war standard."

"Another tragedy is that France knows that a policy of a stern Shylock asking for the last ounce of human flesh is absurd, and yet she is compelled to stick to the guns of her demands. Unless she keeps up her faith in the solvency of Germany, she must admit her own bankruptcy."

"This is then the triple curse of the present European situation: Germany will not pay and cannot pay, at least not so much as France, who knows her own demands to be impossible, must insist upon to escape her own economical destruction. The entente must demand an indemnity, and is justified in accepting it, but cannot for interior reasons accept German goods, the only real means of repayment."

### POLAND CLAIMS OLDEST SPINSTER

WARSAW, April 23.—Poland says it has the oldest spinster in central Europe. She is Miss Anna Dobek, living in Chocinow, who recently celebrated her 124th birthday. Miss Dobek is still quite active, physically and mentally, and does some house work each day.

She also has a sense of humor, and to her acquaintances, attributes her longevity to the fact that she has never been bothered by having a man about the house. Miss Dobek doesn't like cats, either.

### CUDAHY FUNERAL BE HELD TODAY AT LOS ANGELES

(By Associated Press)

### BENEFICIARY GETS PROMPT SETTLEMENT

An April 4 of this month, W. Albrighton, an Englishman who had been employed by the Tonopah West End Mining company, passed away after a few days' illness of heart failure, at the same operators' hospital. The deceased had resided in Tonopah for many years and was one of our esteemed citizens. During the past three years of his life he had made his home with Mr. and Mrs. F. Shindler, who considered him one of the family. His beneficiary policy, which is issued free of cost and which beneficiary dates from the employment of the insured, was issued by the Tonopah West End Mining company. It covered his entire policy to be made payable to Mrs. Shindler as a reward for her kindness during illness at her home and the splendid treatment given by her husband and herself. Today the West End, through its local agent, C. H. Smith, paid by check to Mrs. Shindler \$1250, the amount of the policy of the insured at the time of his demise.

The insurance is known as the "employee's group life insurance" and Albrighton's policy was issued by the Aetna Life Insurance company and proves the efficiency and quick payment by that great and old established insurance company.
